# Finish Standards Program

## Armenise Building

**Status: Draft.** Updated Fall 2015.

This document lists the standard finishes and finish options for each space type in the Armenise Building: office, laboratory, conference, classroom, restroom, and common and circulation spaces. Each space type has a table of standard finishes, followed by tables of flooring and paint options for its subtypes. A finish legend at the end lists every finish by material.

**Note:** Coloring on screen may vary. Physical samples are archived at Facilities. The color column in each table is an approximate on-screen color only. The manufacturer, product, and color name identify the finish.
